

Carl Zeiss SLR Lenses

Distagon T* 1,4/35

The Modern Light Artist

This moderate wide-angle lens is as bright as the Planar T* 1,4/50 and T* 1,4/85 thus perfectly complementing this product range. Thanks to the excellent "bokeh" in the out-of-focus areas, it opens up new possibilities in background design. Precise focusing mechanics featuring a wide rotational angle allow you to work accurately with different levels of sharpness to create an individual atmosphere. Whether reportage, portrait or landscape photography – the new **Distagon T* 1,4/35** is a master of artistic expression.

Distagon T* 1,4/35

Picture shows ZE mount

ZE ZF.2

We make it visible.

1 The extraordinary „bokeh“ of the out-of-focus background area gives you a great scope of creative possibilities.

2 The fast f/1.4 aperture produces impressive images even under difficult lighting conditions.

3 The optimal absorption of reflexes provides high-contrast, expressive images in available light photography.
